RESEARCH PROFILE

Pharmacist and MPhil-trained pharmacy-practice researcher with extensive tertiary-care hospital pharmacy experience, with research interests spanning clinical pharmacy, medication safety, antimicrobial stewardship, evidence-based pharmacy practice, implementation of pharmacy services, and patient-centred medication optimisation. Experienced in clinical research, cross-sectional survey work, prospective/interventional studies, medication-use evaluation, and multidisciplinary hospital practice. Seeking a fully funded international PhD opportunity aligned with pharmacy practice, clinical pharmacy, medication safety, antimicrobial stewardship, or health-services/implementation research.

EDUCATION

- MPhil, Pharmacy Practice — Faculty of Pharmacy & Pharmaceutical Sciences, University of Karachi, Pakistan — 29 November 2024.
- MPhil Thesis: "Effectiveness and Safety Assessment of Calcium Channel Blockers Compared to Beta Blockers in Patients with Angina."
- Research Supervisor: Dr. Saira Saeed Khan, Assistant Professor, Department of Pharmacology, Faculty of Pharmacy and Pharmaceutical Sciences, University of Karachi.
- Doctor of Pharmacy (PharmD) — Federal Urdu University of Arts, Sciences and Technology, Faculty of Pharmacy — degree year 2016; diploma dated 1 January 2019.
- Bachelor of Pharmacy (B-Pharm) — University of Karachi, Faculty of Pharmacy — degree year 2006; diploma dated 2 February 2007.
- Academic records from secondary education through MPhil are retained in the supporting-document set.

PROFESSIONAL EXPERIENCE

- Liaquat National Hospital and Medical College, Karachi, Pakistan — Senior Pharmacist / Clinical Pharmacy | 7 August 2007–Present. Experience includes Drug & Poison Information, ambulatory and inpatient pharmacy, community pharmacy, clinical pharmacy services, emergency pharmacy, and Training & Development. Key responsibilities include ward-round participation, antimicrobial stewardship since 2018, renal/hepatic dose adjustment, administration/compatibility/dilution, medication safety, data analysis, healthcare-professional education, and research/skills development.
- Aga Khan University Hospital, Karachi, Pakistan | 2006–2007 | One-year Hospital Pharmacy Job Training. Exposure included unit-dose distribution, floor-stock/CPR-cart filling, sterile and non-sterile compounding, ambulatory care, CPOE, patient counselling, chemotherapy/IVPB admixture, and TPN preparation.

RESEARCH EXPERIENCE & THEMATIC AREAS

- Clinical pharmacy and evidence-based medication management
- Medication safety, high-alert medications and medication-error prevention
- Antimicrobial stewardship and antimicrobial resistance
- Pharmacy practice research and implementation barriers
- Hospital pharmacy service improvement and multidisciplinary practice
- Cross-sectional surveys, prospective/interventional studies, observational research and clinical data collection
- Research dissemination through peer-reviewed publications and international conference abstracts

FIP Montreal 2026, Pharmacy Practice Research; World Congress of Pharmacy and Pharmaceutical Sciences, Montreal, 30 August–2 September 2026. Cross-sectional survey of 125 registered pharmacists in Karachi using a validated online questionnaire.

LEADERSHIP, TRAINING & MENTORSHIP

- Hospital pharmacy training and professional development activities in a tertiary-care teaching-hospital environment.
- Mentorship and supervision of pharmacy interns/learners within hospital pharmacy services, as reflected in public professional activity.
- Participation in professional pharmacy and research activities, including conference dissemination.

PROFESSIONAL SKILLS

- Clinical pharmacy practice and medication optimisation
- Medication safety and high-alert medication management
- Antimicrobial stewardship
- Evidence-based pharmacy practice
- Research data collection and questionnaire-based research
- Literature review and scientific writing
- Interdisciplinary communication and hospital pharmacy training
- Research dissemination and conference presentation
- Pakistan Pharmacist Association (PPA), Sindh Cabinet — Vice President | Appointed 2023

PHD RESEARCH INTERESTS

- Clinical pharmacy and medication safety
- Evidence-based pharmacy practice and implementation science
- Antimicrobial stewardship / antimicrobial resistance

Shama Abidi — International PhD Academic CV | 2026

- High-alert medications and medication-error prevention
- Pharmacy-service improvement and health-system research
- Digital/AI-supported medication management and clinical decision support

LANGUAGES

- English — Professional working proficiency
- Urdu — Professional/native working proficiency
